

Name : Steve Broom
Job Title: 2nd Fix Carpenter & Joiner

Hello – I'm Steve Broom and I am a 2nd Fix Carpenter and Joiner which means that I basically get involved with all aspects of internal joinery, such as the fit of:-

Skirting board, architrave, paneling, radiator covers, cupboards, wardrobes, wooden windows, picture rails, dado rails and staircase parts, such as handrails, newel posts and spindles, in fact anything that is made of wood and is fitted to the inside of the house, I get involved with. This also includes minor construction work such as stud walls, repairs to joists and flooring.

However, much of the work I am asked to carry out is the supply and fit of both internal and external timber doors. These are available in most sizes and styles from a basic smooth faced flush panel door to the more traditional 'raised and fielded' 6 panel Colonial style door and can either be painted or stained as required.

I also have a Web Site to promote this particular aspect of the business which is appropriately named The 'Wooden Door Company' so if you are in need of an experienced Apprentice Served, City and Guilds Qualified Carpenter and Joiner who specialises in the supply and fit of quality doors, then visit the Web Site or give me a call.

*That's Steve Broom Carpenter and Joiner,
The Man Who Likes Wood*
