Dear Peter,

Many thanks for the lovely job you did on our butler's tray table. It has come back looking as good as new and it is impossible to see where the top was damaged. Attached is a cheque in settlement of your invoice which I must say was a pleasant surprise – quite a rare occurrence these days!

We will, of course, be recommending your services in the future when the opportunity arises and will no doubt be requiring your services in the future should the phantom table wrecker strike again.

With best wishes

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Alice Spink', written in a cursive style.
