Dear Sheila

Magnetic Bracelet

I just wanted to tell you what a success the magnetic bracelet I bought for Lesley has been. Although I bought it for her aches, pains and migraines it has helped in other ways too.

I genuinely think that Lesley is suffering from less migraine headaches which were beginning to occur at least once a week. They now occur about once every month only and of course that means taking far less pills as well. So good news all round.

In addition to this she has found that her car sickness has disappeared completely. Not an outcome we were expecting or looking for. We discovered this when on holiday earlier this year and driving around the very windy roads of Gran Canaria. Not a trace of sickness or headaches.

Bus journeys to and from work have also become travel sickness free and she is even able to read on the journeys. Lesley's comment is that she feels more grounded now and without that feeling of floating around at the buses mercy!

Before we know it she'll be map reading properly soon!!!

Thanks again, Sheila, we are about to recommend a bracelet to a friend whom we discovered also suffers from travel sickness and will certainly recommend to others that they give your magnetic products a try. I am certainly finding that my small 4X4 diesel benefits from the fuel magnet too - from which I now get a reasonable 40 miles per gallon.

Yours sincerely

Andrew Cowen

Dear Glynis

Magnetic Bracelet

I just wanted to tell you what a success the magnetic bracelet I bought for Lesley has been. Although I bought it for her aches, pains and migraines it has helped in other ways too.

I generally think that Lesley is suffering from less migraine headaches which were beginning to occur at least once a week. They now occur about once every month only and of course that means taking far less pills as well. So good news all round.

In addition to this she has found that her ear sickness has disappeared completely. Not a trace of sickness or headaches. We discovered this when on holiday earlier this year and driving around the very windy roads of Glin Gairloch.

Not a trace of sickness or headaches. We discovered this when on holiday earlier this year and driving around the very windy roads of Glin Gairloch. But journeys to and from work have also become blissful sickness free and she is even able to read on the journeys. Lesley's comment is that she feels more grounded now and without that feeling of floating around at the buses mercy!

Before we know it she'll be mass reading properly soon!!!

Thanks again Glynis, we are about to recommend a bracelet to a friend whom we described also suffers from travel sickness and will certainly recommend to others that they give your magnetic products a try. I am certainly finding that my small 4X4 diesel benefits from the fuel magnet too - from which I now get a reasonable 40 miles per gallon.

Yours sincerely

Andrew Cowen
