Dear Dave

RE: Air conditioning at Orchard Lodge

Thank you for your help in the design, supply and installation of the air-conditioning in my office here at Orchard Lodge.

You were able to visit me and assess the cooling requirement, and to put together a specification for the right equipment to keep the offices cool in summer and thus boost productivity and morale.

I very much appreciated the way the system is completely hidden, with just four discrete eyeball diffusers at high level complementing the modern design and no exposed pipe-work or cables, and with all the condenser units out of sight.

I will certainly recommend your hard working and professional service to all my contacts, whether they are looking for, the design, installation or the maintenance of their air conditioning systems.

Thanks again, yours sincerely

Mark Horner, RIBA
