Dear Tim

RE: Tax Advice and Accounts for Mark Horner, Chartered Architect

I am writing to thank you for your help and advice regarding my business accounts and Tax Planning. As a successful architect I have been operating for several years as a sole trader and paying large amounts to the taxman as a consequence.

As you know, I formed the Limited Company as a result of your advice, and after switching to Stephen Hill Mid Kent Ltd for my accounts, I have been impressed by your outstanding quality of service. I really appreciate the way you have made the transition to the new structure painless leaving me time for to run my busy architectural practice without worries. I was particularly impressed how you were able to deal with my recent Tax Demand for nearly £10,000, and reduce this so that the Inland Revenue now owe me money. In all I find your service value for money and I appreciate the small monthly payments by direct debit as this lets me spread the cost over the year.

I am always willing to recommend your outstanding service to any of my clients and contacts, so if you ever need a reference, please let me know and I will be happy to recommend you.

Thanks again.

Yours sincerely

Mark Horner, RIBA
Chartered Architect
