

Dear Claire

I thought I would drop you a quick line to thank you for the excellent Holiday we had visiting my Wife's Family in up state New York. So not the standard USA destination, but tailored to our requirements without the hassle of surfing the net.

We hope to go back there soon and you will be our second call. The first will be to let them know we are going back for a visit.

PS we went to Lake George in NYS great place you can swim with ducks, Ok not as cool as Dolphin's but how many people do you know who have a swim ducks, with a Paddlesteamer going past in the distance.
