Dear James

I write to thank you for the excellent service received and to commend your service to others.

I told you that the eco-friendly bulbs that I had in my lounge were only lasting a few weeks rather than the 5 years or so advertised. It was costing me a lot of money. You came and inspected the fittings and showed me that the screw in bulbs were shorting out because the tension had gone in the fitting where the screw in type bulbs should have made contact. You suggested that we buy new fittings. You also said that, if we wanted downward facing wall lights, we should ensure that they were designed for down fitting with air holes to allow the heat to escape. The ones we had did not have such air holes and were many years old.

In due course, when we had bought new wall lights and ceiling lights you came and fitted them promptly and at a reasonable cost. Thank you James.

Yours sincerely
